

Case Study Solicitation:

<https://www.surveymonkey.com/r/ECEE-Case-Studies>

Use the link. The deadline is Fri., Oct. 29, 2021

Instructions

Case Studies & Best Practices (ECEE Track 3) will develop case studies and identify best practices based on programs and initiatives that have been successful in addressing equity. This working group will become a channel to identify great case studies and best practices to accelerate the transition to a more equitable clean-energy future.

This survey tool (<https://www.surveymonkey.com/r/ECEE-Case-Studies>) allows you to indicate topics of interest to you and to submit up to three examples (or ideas or leads) for programs or initiatives that have successfully addressed equity and that could be showcased. Based on your input, content will be created, including webinars, papers, and educational media.

THIS SECOND ROUND OF SOLICITATION WILL END ON FRIDAY, OCTOBER 29TH, 2021.

You will first identify yourself. Then there are two parts. You may complete Part 1 or Part 2 or both.

- First, tell us about your general preferences – your topics of interest for case studies.
- Second, provide successful programs or initiatives that could be developed into formal case studies (or which already exist as a case study). Part 2 is repeated two more times (i.e., pages 3, 4, and 5 are the same) to allow you to submit up to three successful programs or initiatives.

Be sure to click "Next" at the bottom of each page to save it. If you are interrupted (uncompleted), you may return to the same position using the same device. If you have questions about this survey, contact DEFG's Nat Treadway at ntreadway@defgllc.com.
